

# CallingGen

## AI-Powered Customer Engagement Platform

**Smarter Conversations. Faster Responses. Better Customer Experience.**

---

### About CallingGen

CallingGen is an AI-powered customer engagement platform that helps businesses automate customer communication across WhatsApp using intelligent virtual assistants.

Our platform leverages advanced AI to understand customer intent, provide accurate responses, and execute business workflows automatically, enabling businesses to deliver fast, reliable, and personalized customer support around the clock.

Whether it's answering customer queries, sharing business information, scheduling callbacks, or automating repetitive tasks, CallingGen simplifies customer engagement while improving operational efficiency.

---

## Our Solutions

### AI WhatsApp Assistant
